Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The amendment received 4 September 2007 has been made of record.

Claims 1-53 are pending. Claims 24-53 stand withdrawn.

The provisional statutory type double patenting rejection contained in the previous office action is withdrawn in view of applicants' amendments.

All rejections under 35 USC 102 and 35 USC 103 except that found below are withdrawn in view of applicants' amendments.

Claims 5 and 8 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 5 and 8 of copending Application No. 10/823,428. Although the conflicting claims are not identical, they are not patentably distinct from each other because of reasons of record.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Claims 14-23 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 14-23 of copending Application No. 10/823,428. Although the conflicting claims are not identical, they are not patentably distinct from each other because of reasons of record.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Claims 1, 2, 6, 7 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by DE 4324315.

This rejection is maintained for reasons of record.

Applicants argue that the compositions of this reference are meant to be troweled and, therefore, do not possess the instantly claimed viscosity.

Applicants' attention is directed to page 2 of 3, 9th full paragraph of the machine translation of the DE document. It is stated therein that the compositions of the reference are suitably applied by spraying. It is the examiners position that this disclosure inherently teaches compositions within applicants' viscosity limitation.

Applicants argue that the reference fails to teach particle sizes such as instantly claimed. Applicants' attention is directed to c) Vorgemisch 2 at the bottom of page 2 of 3 of the machine translation. There it is taught that the particle size of the filler is 15 um.

Claims 3, 4, 9, 10, 12 and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will

the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Edward J. Cain whose telephone number is (571) 272-1118. The examiner can normally be reached on M-F, 10:00-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu can be reached on (571) 272-1114. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
